PROFILE

Hi! I'm a Software Engineer, Professor, and a Designer. I am a Bachelor of Science in Information Technology Graduate from the Polytechnic University of the Philippines. I Develop multi-platform software applications. I created apps in academic and professional fields and presented them on the national level. Currently focused on Web Development using Ruby on Rails and React, while doing academic research on Artificial Intelligence. Working and communicating with people is one of my greatest strengths.

SKILLS

- HTML, CSS, JS, React, Angular, Typescript
- Ruby on Rails, Ruby, PHP
- SQL, PostgreSQL, MongoDB, PHPMyAdmin
- Adobe CC, MS Office Suite, Google Office Suite
- Git, Github, Circle CI, SonarCloud, Datadog
- Jira, Slack
- Android Studio
